

MARCH / Mid-Atlantic Retro Computing Hobbyists

Description:

MARCH formed in late 2004 and has members from Hartford to Pittsburgh to D.C. ... we also operate a bricks-and-mortar computer museum in Wall, N.J. at the InfoAge Science Center (infoage.org). In addition we host the annual Vintage Computer Festival East. Whether you prefer vacuum-tube mainframes, the DEC PDP-8, IMSAI, or Commodore (etc.), we've got something for you! Unlike most groups / museums, we focus on actually getting the systems running again for public demonstrations.

Country: United States

State: NJ
